

CCMMP11

Dear CCMMP Delegates,

It is my pleasure to invite you to the 11th Session of the Codex Committee on Milk and Milk Products (CCMMP), which will be held by correspondence from 29 September to 29 October 2026. New Zealand is proud to host this session, and we look forward to working with all delegates as we continue advancing Codex's important work on milk and milk products.

As with previous correspondence sessions, written contributions will form the basis of our work throughout the session period. As Chairperson, I will propose the virtual adoption of the report, enabling delegates to engage directly, resolve any outstanding matters and confirm the final text in a timely manner.

The 11th Session will focus on the proposed draft standard for pasteurized liquid camel milk. We would like to express our appreciation to the Codex Secretariat, the United Arab Emirates and the International Dairy Federation (IDF) for their support in preparing the discussion on this agenda item. Their contributions strengthen the collaborative spirit that underpins Codex work and help ensure robust, inclusive outcomes.

I believe we now have strong foundations on which to build, with the engagement of all Codex Members and Observers. I encourage you to approach the forum with that same collaborative spirit and commitment to developing a standard that meets a range of needs.

To support high-quality deliberation, we kindly request that submissions be evidence-based and that references be provided wherever possible for technical details and scientific data. This ensures transparency, strengthens the robustness of our discussions and supports the development of sound, internationally trusted Codex standards.

We look forward to your active participation throughout the session.

Ngā mihi nui,

Jenny Bishop
Chairperson
Codex Committee on Milk and Milk Products (CCMMP)
