Nature and Food Quality

Hakim Mufumbiro,
Uganda National Bureau
of Standards

Purpose

Review

To review efforts since adoption of CXG 93-2021 to promote and support implementation of the vTPA Guidelines, including initiatives led by UNIDO, STDF and others, and to illustrate how these activities have contributed to Codex Strategic Plan Goal 4 by increasing the visibility, use and impact of Codex standards.

Stocktake

To take stock of experience gained by competent authorities in applying the vTPA approach the use of assurance information/data to support National Food Control Systems.

Identify

To identify lessons learned, challenges and future opportunities associated with the use of the vTPA approach, including how improved data access, information sharing and digitalisation could support wider adoption by competent authorities.
